Summary

Frontend/Angular Developer with 5+ years of experience building enterprise-grade Single Page Applications (SPAs) using Angular, TypeScript, RxJS, Angular Material, JavaScript (ES6+), HTML5, and CSS3. Skilled in REST API integration, reactive forms, lazy loading, and component-based architecture, with a strong track record of performance optimization, production support, and delivering scalable solutions in Agile/Scrum environments. Experienced across enterprise platforms (Asset Data Hub, HCM, Ultimatix GRS) with proven ability to resolve 50+ production defects and ship 15+ UI enhancements for applications used by thousands of users.

Experience

Accenture Solutions Private Limited Bengaluru
Custom Software Engineering Sr Analyst 2 December 2024 - Present

- Developed enterprise Angular applications for Asset Data Hub (ADH) and HCM platforms.
- Built Angular Material dashboards, API integrations, and PPTXGenJS-based reporting solutions.
- Implemented role-based authentication, timezone-safe date handling, and delivered 15+ UI enhancements across HCM modules.
- Resolved 50+ production defects and regression issues while supporting applications used by thousands of enterprise users.
- Collaborated with QA, DevOps, and product teams to support CI/CD deployments and production releases.

Tata Consultancy Services Lucknow
System Engineer, Grade-C1 5 April 2023 – 26 November 2024

- Developed and maintained Angular-based modules for Ultimatix GRS and iBegin platforms.
- Integrated REST APIs and implemented responsive UI components using Angular, HTML, CSS, and JavaScript.
- Optimized application performance, resolved production issues, and delivered enhancements for the Global Recruitment System (GRS) and iBegin Candidate Portal.
- Participated in Agile development, code reviews, and cross-functional collaboration.

Neurapses Technologies Pune
Front-end Web Developer March 8 2021 - 31 March 2023

- Developed responsive Angular applications and integrated REST APIs.
- Implemented new features and enhanced existing modules in collaboration with cross-functional teams.
- Improved application performance through optimization, debugging, and API integration across multiple Angular applications.
- Participated in Agile development, code reviews, and release activities.

Education

Babu Banarasi Das National Institute of Technology & Management (2020)
B.Tech, Information Technology

Skills

Frontend

Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, Angular Material, RxJS

Frameworks

Angular CLI, Reactive Forms, Lazy Loading, Dependency Injection, Route Guards, SPA Development

API & Integration:

REST APIs, RESTful Services, JSON, API Integration

Tools

Git, GitHub, Azure DevOps, Postman, VS Code, GitHub Copilot

Methodologies

Agile, Scrum, SDLC, CI/CD

Expertise

Performance Optimization, Responsive Design, Production Support, Code Review, Git Workflow, Cross-Browser Compatibility, Component Architecture
